

*Informative base of funds and authorities which render sponsorship  
for scientific and educational projects*

| Name of fund/organization/agency/program   | Web page   |
|--|--|
| <p><b>U.S. Civilian Research &amp; Development Foundation (CRDF).</b> CRDF is an independent nonprofit organization that promotes international scientific and technical collaboration through grants, technical resources and training.</p>   | <p><a href="http://www.crdf.org.ua">http://www.crdf.org.ua</a></p>   |
| <p><b>The USA agency for international development (USAID)</b><br/>USAID promotes peace and stability by fostering economic growth, protecting human health, providing emergency humanitarian assistance, and nurturing democracy in developing countries</p>  | <p><a href="http://ukraine.usaid.gov">http://ukraine.usaid.gov</a></p>   |
| <p><b>Friederich Ebert Stiftung</b> – German nonprofit public organization, the main goals of activity are an assistance the processes of democratization and development of civil society. A fund carries out research devices on questions of social history, economic policy, labour and social relations, organizes the elucidative measures of conference, seminars.</p>  | <p><a href="http://www.fes.de/">http://www.fes.de/</a></p>   |
| <p><b>TEMPUS (Trans-European Mobility Scheme for University Studies),</b> - the educational programme of European Union, which holds up the improvement of collection the higher education and creates space for a collaboration in the countries-partners EU through university devices. It also aims to promote voluntary convergence of Partner Country higher education systems with EU developments in the field of higher education. In addition to institutional cooperation Tempus also promotes a "people to people" approach.</p> <p><b>The modern stage – Tempus IV</b> - is the constituent of general strategies of EU. In the programme Tempus IV certainly three basal conductors reformations in the field of higher education, which coincide with the tasks of the educational programme ES «Life long Learning and conform to Lisabon strategy and conditions of Bologna process:</p> <ol style="list-style-type: none"> <li>1. on-line study modernization ;</li> <li>2. development the processes in higher education;</li> <li>3. strengthening the connects between initiation and society.</li> </ol> <p>Programme Tempus IV gives a capability countries-partners to elect on your own the priority conductors of reformation and encourages all of interested to find out initiative, search innovative approaches, create the newest educational products and services.</p> | <p><a href="http://www.tempus.org.ua">http://www.tempus.org.ua</a><br/><a href="http://eacea.ec.europa.eu/tempus/funding/higher_education_institutions_en.php">http://eacea.ec.europa.eu/tempus/funding/higher_education_institutions_en.php</a></p> |
| <p><b>7th Framework Programme is the main financial instrument of the European Union</b> for support of research devices in EU and in countries after his extents. A programme budget on the nearest seven years (2007-2013) is 50 milliards Euro. The framework programme creates certain strategic space (original „framework”) for financing and realization the research devices in EU and after his extents. As a rule, the framework programme are counted on 4-7 years.</p> <p>7 framework programme consists of four programs which answer the special aims and basal components of European investigations:</p> <p><b>Cooperation</b><br/>The specific programme on 'Cooperation' supports all types of research activities carried out by different research bodies in trans-national cooperation and aims to gain or consolidate leadership in key scientific and technology areas.</p>   | <p><a href="http://cordis.europa.eu/fp7/cooperation/home_en.html">http://cordis.europa.eu/fp7/cooperation/home_en.html</a></p>   |

The budget will be devoted to supporting cooperation between universities, industry, research centres and public authorities throughout the EU and beyond. The cooperation divide into:

1. *Health*
2. *Food, Agriculture and Fisheries, Biotechnology*
3. *Information & communication technologies*
4. *Nanosciences, nanotechnologies, materials & new production technologies*
5. *Energy*
6. *Environment (including Climate Change)*
7. *Transport (including aeronautics)*
8. *Socio-economic Sciences and the Humanities*
9. *Space*
10. *Security*

#### **Ideas**

The programme «Ideas» is a new conductor in the framework programme . It base ideology – not only instrumental in a research collaboration between institution or greater international mobility of research workers but also hold up the most innovative ideas, that the European researchers design them and incarnate. The programme holds up «front-rank investigations» only on the basis of scientific perfection. Investigation can be conducted in any sphere of science or technologies, including engineerings, socio-economic and humanitarian sciences. Unlike the programme of collaboration, there are no obligations in partnerships. Devices will be realized «separate banks» which are built round a «main researcher». The programme will be realized by new European Research Council (ERC) task of which, on definition of European Committee, to stimulate the shortest, truly creative research workers, researchers and engineers for realization the investigations.

#### **People**

The 'Marie Curie Actions' have long been one of the most popular and appreciated features of the Community Framework Programmes for Research and Technological Development. They have developed significantly in orientation over time, from a pure mobility fellowships programme to a programme dedicated to stimulating researchers' career development. The 'Marie Curie Actions' have been particularly successful in responding to the needs of Europe's scientific community in terms of training, mobility and career development. This has been demonstrated by a demand in terms of highly ranked applications that in most actions extensively surpassed the available financial support.

The 'People' Specific Programme will be implemented through actions under five headings:

- 'Initial training of researchers to improve mostly young researchers' career perspectives in both public and private sectors, by broadening their scientific and generic skills, including those related to technology transfer and entrepreneurship.
- 'Life-long training' to support experienced researchers in complementing or acquiring new skills and competencies or in enhancing inter/multidisciplinarity and/or intersectoral mobility, in resuming a research career after a break and in (re)integrating into a longer term research

| <p>demonstrated by a demand in terms of highly ranked applications that in most actions extensively surpassed the available financial support.</p> <p>In the Seventh Framework Programme, the 'Marie Curie Actions' have been regrouped and reinforced in the 'People' Specific Programme.</p>   |  |
| <p><b>Jean Monnet Programme</b> is one of the educational and scientific programs of European Union.</p> <p>Within the new Lifelong Learning Programme, the first key activity of the Jean Monnet Programme brings together the two instruments formerly known as the Jean Monnet Action and the Support for Study and Research Centres . The actions supported under this key activity aim to stimulate excellence in teaching, research, reflection and debate in European integration studies in higher education institutions within and outside the Community.</p> <p>European Integration studies involve the study of the origins and evolution of the European Communities and the European Union in all its aspects. European integration studies cover the analysis of both the internal and external dimension of European integration, including the European Union's role in the dialogue between peoples and cultures. Comparative studies concerning national practices are not regarded as European integration studies.</p> <p>The types of actions connected with the objectives of the key activity referred to in article 3(3)(a) are Jean Monnet Chairs, Centres of Excellence and Modules, focusing on teaching activities and support for Associations of Professors and Researchers, for Information and Research Activities relating to European integration and for Multilateral Research Groups.</p> <p><i>Academic and research activities</i></p> <ul style="list-style-type: none"> <li>• Support for associations of professors and researchers specializing in European integration. Addresses associations whose explicit purpose is to contribute to the study of the European integration process and whose aim is to enhance the visibility of regional or national scientific and physical resources in this domain.</li> <li>• Support for information and research activities relating to European integration. Aims to promote discussion, reflection and knowledge about the European integration process.</li> <li>• Jean Monnet multilateral research groups. A research partnership between at least three Jean Monnet Chairs from three different countries leading to the creation of an integrated academic network with a joint research plan and pluridisciplinary synergies in the field of European integration studies.</li> </ul> | <p><a href="http://ec.europa.eu/education/lifelong-learning-programme/doc88_en.htm">http://ec.europa.eu/education/lifelong-learning-programme/doc88_en.htm</a></p> |
| <p><b>The International Visegrad Fund</b> was established in 2000 by the Governments of the four Visegrad countries (The Czech Republic, the Republic of Hungary, the Republic of Poland and the Slovak Republic). The main purpose of the Fund is to promote closer cooperation and to strengthen the ties between the four countries.</p> <p><i>These objectives are pursued through financial support to promote and develop the following areas:</i></p> <ul style="list-style-type: none"> <li>• <i>Cultural cooperation</i></li> <li>• <i>Scientific exchange, research and cooperation in the educational field</i></li> <li>• <i>Exchanges between young people</i></li> </ul>   | <p><a href="http://www.visegradfund.org">http://www.visegradfund.org</a></p>   |
